

Vaccine Update

13 January 2021

The Coronavirus Vaccine program is being rolled out throughout Lincolnshire. We are very fortunate to have been allocated early vaccination slots, and we hope that this will continue – but this is not guaranteed, the program will soon roll on to other groups. As you can imagine the initial allocations have been done very quickly, with very little notice.

We have been telephoning people who have responded to our previous messages, to arrange vaccination – so far about 10% of our teams have been allocated vaccination slots. Vaccination at this stage is a huge privilege; many people will not get this opportunity for many many months. If you have not yet provided your details and wish to be included in the vaccination program, please fill out the form at the link below.

You *must* provide your NHS number; bookings made without this, or with an incorrect number, are being rejected by the NHS. You can find your NHS number on almost any NHS letter or document sent to you. If you cannot find your NHS number any other way, call your GP surgery.

If you wish to **register** for vaccination, follow the link or scan the code below to fill in a very short form. Don't wait, do it now:

What if I don't want the vaccine?

Vaccination is of course, your own choice. I would urge you to consider very carefully before making your decision. Information from the NHS about vaccine development and safety is available at the above (more information) link.

REDUCE THE RISK
Wash your hands || Keep your distance || Use PPE
